

Coronavirus (COVID-19) pandemic and your information

We have an obligation to protect all our staff and employees' health. For this reason, it is reasonable for us to ask you to tell us if you are experiencing COVID-19 symptoms. In such circumstances we may need to collect specific health data about you. Where we need to do so, we will not collect more information than we require, and we will ensure that any information collected is treated with the appropriate safeguards.

It is unlikely that the practice will be asked to share information with authorities about you specifically but if this is necessary then data protection law will allow us to do so.
